

Tips and Tricks

Among Us is a murder mystery puzzler, where you play as a group to complete basic tasks around a spaceship. None of these tasks are particularly difficult - though card swiping can be frustrating - but they're hampered by the presence of an 'Impostor'. There will be between one and three Impostors each game, and a full crew can be up to ten.

Among Us is very much a game of two halves, as how to win as a crew mate varies wildly from how to win as an Impostor. For that reason, we've separated the tips here into two categories, so that no matter what you're playing as, you can gain the upper hand. We've also got you covered if you want to know the basics of how to [play Among Us](#), or if you want to know the best settings for Among Us too.

Crewmate Tips and Tricks

Complete tasks

Sounds basic, but this is how you win. Don't focus too much on figuring out the Imposter, make sure you do your job.

Tasks are crucial to victory as a crewmate. The whole crew needs to either complete all of the tasks before the Impostor kills everyone off, or to vote all of the Impostors out.

Don't complete tasks

Yeah, this contradicts the tip above, but make sure you don't have a laser focus on the tasks, otherwise you'll never figure out the Impostor.
